GOVERNMENT OF MYSORE
DEPARTMENT OF INDUSTRIES AND COMMERCE.

FROM

B.G.A.Mudaliar, Esq., B.A., B.Sc., A.M.I., Mech., E.,
Director of Industries and Commerce in Mysore,
Bangalore.

TO

The Director,
Sandalwood Oil Factory and Secretary
Industrial Research Board,
Mysore.

No. C5.12 P.33/39-40
Enclosures Two

Dated the 12th August 1940.

Sir,

I have the honour to forward herewith for your reference a
copy of the Bulletin No.18 Utilisation of Indian Vegetable Oils
as Lubricants of Internal Combustion Engines - Part I " together
with a copy of the unofficial Press Note No.F.48/1/40 Pub.
dated July 18, 1940 received from the Director, Scientific and
Industrial Research, Calcutta.

I have the honour to be,

Sir,

Your most obedient servant,

For Director.

BV

Copy of Unofficial Note No.F.48/1/40-Pub, dated 18th July 1940, from the Principal information Officer, Govt. of India.

NOT TO BE BROADCAST OR PUBLISHED BEFORE JULY 25, 1940.

LUBRICANTS FROM VEGETABLE OILS-RESEARCH BUREAU'S DISCOVERIES
SUBSTITUTES FOR MINERAL OILS. —

~~SECRET~~

Mineral Oil resources being limited in the world, the Industrial Research Bureau has been investigating the possibilities of utilising vegetable oils as high grade lubricants for use in internal combustion engines. India is one of the largest producers of vegetable oil seeds and vegetable oils.

For the lubrication of internal combustion engines, mineral oils have for years been the source from which lubricants for a wide variety of applications have been derived. Recent advances in scientific technique connected with wax extraction, solvent refining, stabilization, etc., have made it possible to produce lubricants of mineral oil origin having very high standards of performance.

Chemical investigations which have been carried out and which are described in the Bureau's Bulletin No.18 issued today have resulted in the discovery of a dozen chemicals which are effective stabilizers when used in various vegetable oils such as castor, groundnut, and cotton-seed oil. Rape oil has also been studied.

Several effective combinations of oils and stabilizers were devised, and a series of engine lubricants produced. These have been subjected to practical engine trials, the results of which have been encouraging and show that vegetable oils are a potential source of good quality engine lubricants. A detailed account of these trials will be published in a separate bulletin.

One often hears of castor oil having been employed in aero-engines and racing car engines, [^]where operating conditions are severe and impose a correspondingly severe strain on the lubricants. It is still favoured in India for the lubrication of certain parts of ~~xxxx~~ railway engines. In fact, owing to its superior qualities castor oil is regarded as indispensable under certain circumstances. It has one serious drawback, however, which is that it is susceptible to oxidation and consequent thickening and this necessitates frequent renewals, which are costly and only justifiable in the case of highly specialised operations such as racing.

THE MAIN PROBLEM.

The advantageous qualities of castor oil, such as good film strength, high degree of oiliness, low coefficient of static friction; etc., are shared by most of the vegetable oils, together, however, with the drawback of shortness of serviceable period. The main problem to be solved to render vegetable oils ~~xxx~~ satisfactory as substitutes for mineral oils therefore reduced itself to increasing the stability of vegetable oils under arduous and prolonged service conditions, other desirable properties being already present to a greater extent than in mineral oils.

Ref. No. 2058/6

6th December, 1940.

The Secretary,
Industrial Research Board,
The Government Electric Factory,
Lysore Road, Bangalore City.

Dear Sir,

With reference to your letter No.15/40-1 of November 12,
I have the honour to inform you that the letter was placed before
the meeting of the Board of Editors held on 5th December, for
consideration.

In view of the stringency of finances which is freezing
the activities of the journal and the pressing need for further
expansion of activities, the Board suggests that you will be
materially assisting a journal of this kind, by subscribing for
it. In consideration of this, the Board will be glad to forward
to you pamphlets of technical importance received in the office,
from time to time.

Thanking you,

Yours faithfully,

GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

General and Revenue Secretariat

No. D 2658
11c 219-60-2

Bangalore, dated 9 December 1940

FROM

*The Secretary to the Government of His Highness
the Maharaja of Mysore.*

To

Development Department.

The Secretary,
Industrial Research Board,
Government Electric Factory,
Mysore Road, Bangalore.

SUBJECT: Supply of reference books to the Industrial
Research Board Office.

Sir,

With reference to your letter No.14/40-41 dated the 8th November 1940, on the above subject, I am directed to enquire whether the office of the Electric Factory has not got all the reference books in question and if so, why these books should be duplicated since the office of the Secretary, Industrial Research Board is in the same place.

I have the honor to be,
Sir,
Your most obedient servant,

MYSORE ECONOMIC CONFERENCE.
BOARD OF INDUSTRIES AND COMMERCE.

Subject Reference Books

File No: _____ of _____ 19 ____

Letter No. D 2658 Dt 219-40-2
dated 9th Dec '40 from the Secretary
to Govt, Development Department
enquiring whether the reference books
mentioned are not available in the
Electric Factory & if so why they
should be duplicated

The Research Board Office is quite
independent of the Factory. The location
of this office in the Factory is purely
a Tentative arrangement. To facilitate
quick & efficient work, it is an imperative
necessity, to locate the office very near
the old Public Offices (i.e. Chairman's Office)
- a Central place. This question is
already engaging the attention of the
Secretary & is separately taken up.

Moreover the reference books^{*} now asked
for, are a set of books required for
frequent references, both by the Factory &
the Research Board Office. These are Govt.
Publications, which are usually supplied to
all the Govt Offices, including the Dte Bd.

M. S. Regulations &
Account Code.
Circ List Part I & II.
Mysore Gazette. X

In fact, in all big Offices, these books are supplied to the several Sectional heads for the use of Sections to facilitate work & thereby avoiding any possible delay. ^{comprehends} The Electric Factory Office is equally a big Office, where these books, even though they have ^{only a set} are required for frequent references by the Sections of the Factory. To explain further, if these books are to be consulted & put up for references, in the Board Office, naturally the Factory Office work will suffer.

It is ~~then~~ not known whether the Factory Office is in possession of all these books. This is to be ascertained & noted. It is therefore desirable & very convenient to have separate sets of books for the exclusive use of the Board Office, since these books are Govt publications, which are initial & primary reference books of an Office.

For orders.

M. Venkatesa Iyengar, Esq., M.A.,
Secretary to the Government of Mysore,
Development Department, Bangalore.

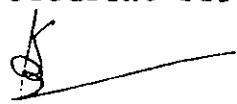

Subject: Reference Books - Supply of.

With reference to your letter No.D.2658/I&C.219-40-2 dated 9th December 1940, on the subject, I am directed to state that the reference books asked for are a set of books required for frequent references both by the several sections of the Electric Factory Office and by the Research Board Office. The Electric Factory does not get Civil List Part I and II regularly; but occasionally purchases only Part I. These are regularly supplied to the Board of Industries and Commerce for exclusive reference of the Board, though it is located in the Office of the Director of Industries and Commerce. Further the location of the -- Research Board Office in the Electric Factory is only a tentative arrangement. The question of shifting the Office to a more central place near the Public Offices is separately engaging the attention of the Board.

It is therefore desirable to have separate sets of books etc. for the exclusive use of the Board office, since these are initial and primary reference books of an Office.

I am therefore to request you to be so good as to obtain sanction of Government for the supply.

I have the honor to be,
Sir,
Your most obedient servant,

SECRETARY.

With reference to your letter dated the 17th
January 1941, I have the honour to enclose herewith the
bulletin entitled " Brief survey of Industrial Researches
carried out in India. Part I and II." Annual Report of
the Industrial Research Bureau for the year 1939-40,
is a priced publication, and can be had from the Manager
of Government Publications, Civil Lines, Delhi or from
the agents for the sale of Government publications of your
province. (The remaining items referred to in your letter
can be obtained from the Secretary, Department of Commerce
Government of India, New Delhi.)

I have the honour to be;

Sir,

Your most obedient servant,

S. Narasimham
Technical Secretary.

470/1001

21st February 1

The Technical Secretary to the
Board of Scientific and Industrial Research,
1/B Judges' Court Road, Alipore, Calcutta.

Subject: Reports published by the Board of Scientific
and Industrial Research.

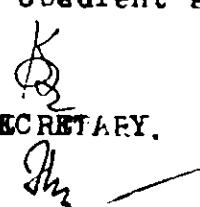

I am directed to acknowledge with thanks the receipt of
your letter No.B.364 dated 9th February 1941, together with the
bulletin "Brief Survey of Industrial Researches in India, Part I & II".

With regard to the Annual Report of the Industrial Research
Board for 1939-40, I am to invite a kind reference to letter No.
B.496 dated 5th December 1940 of the Director of Scientific and
Industrial Research, Calcutta, intimating that he has very kindly
placed the name of this Board in the free distribution list. I have
received all the copies of the Annual reports and Proceedings of
Industrial Research Council up to 1938-39, from the Director of
Scientific and Industrial Research, Calcutta.

Under the above circumstances, the Board will be much
obliged if you can kindly arrange for the forwardal of the Annual
report for 1939-40 and Proceedings of the Industrial Research Council
meetings 1940.

As suggested, the Secretary, Commerce Department, Govern-
ment of India, New Delhi will be addressed for the remaining items.

I have the honor to be,
Sir,
Your most obedient servant,

SECRETARY.

NOTE.

Subject

Industrial Research.

File No.

of

19

Submitted.

It is seen from the Information Bulletin that Six Industrial Researches have been completed by the Bd of Scientific & Ind. Research & are now ready for large scale manufacture. It is also published that those who desire may take up the matter with Government. The Schemes related to the following 1) Laminated paper fibre Board, 2) Dry cells, 3) Resin impregnation of wood, 4) Glass substitutes, 5) Bituminous Stoving enamel, 6) Luminous Pigments & paints.

The Bd of Scientific Research will be requested to send a few copies of these notes on the subjects, which I understand have been published by them.

Yes.

Item No. (1) might interest Mysore Paper Mills & item (6) to M/s. Lac & Paint works. Perhaps the Council might be interested in the above, to pursue the matter, if they are interested in those Schemes.

Copy of letter No.21-30/W.P. dated 26th February 1942 from the Publicity Officer to the Government of Mysore, and Secretary, War Publicity Committee, Bangalore, to the Govt. Director, Industrial Concerns, Bangalore.

I am desirous to forward herewith a copy of Press Note^{**} issued by the Government of India, Defence Department, regarding development of indigenous war supplies, success of India's brain-power and need for further ideas and inventions, with a request that publicity may kindly be given to the Note.

Government of India,
Defence Department,
(Public Relations Directorate)
New Delhi, the 26th January 1942.

PRESS NOTE

DEVELOPMENT OF INDIGENOUS WAR SUPPLIES
SUCCESS OF INDIA'S BRAIN-POWER
NEED FOR FURTHER IDEAS AND INVENTIONS.

Of over one hundred ingenious suggestions received by the Supply Development Committee at General Headquarters in the past four months, seven are likely to be adopted in India while nine have been sent to England for further study.

This proportion of 14 per cent of potentially useful suggestions compares most favourably with the quarter per cent so far accepted by the Ministry of Supply from suggestions submitted by the people of Britain.

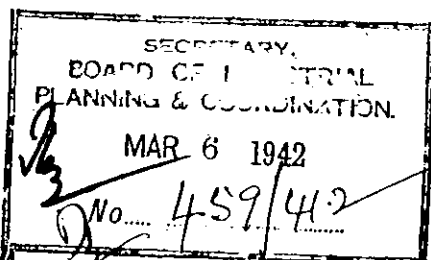

The Supply Development Committee was formed a few months ago to consider any inventions and suggestions designed to improve the equipment of the Army, Navy and Air Force and to increase the use of indigenous materials in their manufacture.

The closer approach of war to India has more than ever emphasised the need for mobilising all the country's available material resources. There is likely to be a growing shortage as time goes on and it is in overcoming these shortages that individual ingenuity can help considerably by suggesting new materials and processes.

More suggestions and ideas of any kind are, therefore, invited by the Committee, with which is associated the eminent Indian scientist, Sir S.S. Bhatnagar, Director of the Board of Scientific and Industrial Research. The Committee will give help and guidance to anyone with specialised knowledge who may desire to devote their experience to devising new methods and materials in aid of India's war effort.

No. 10446-55/56 D/4-3-42

Copy of the above is forwarded, with compliments, to the Secretary, Board of Industrial Planning and Co-ordination, Bangalore, for information.
